Trigger Point Therapy - 1 day – with Richard Hogg

A Trigger Point is best described as an area of hyper-sensitivity in a muscle from which impulses travel to the central nervous system, giving rise to referred pain. The point from which the pain arises is known as the Trigger Point. Causes of trigger points are many and varied - stress, injury, overuse, chemicals, alcohol, etc.

When trigger points are active, muscles remain tight thus restricting blood flow and causing a nerve compression, which keeps the condition in a pain-spasm-pain cycle.

There are many ways of treating trigger points - one of the most effective is the pressure technique that you will be shown, followed by a passive stretch.

You will be awarded an attendance certificate at the end of the course.

The workshop is open to therapists holding a minimum Remedial & Sports Massage qualification at level 4 as well as Physiotherapists, Osteopaths, etc.

Workshop participants should bring:

1. Couch and Cover
2. Bolster and pillow
3. Blanket/towels and face cradle cover

About Richard

Richard has been involved with complementary therapies/healthcare for almost 30 years. One of the earliest therapies he trained in was Reiki. He has been teaching others in this modality and many others for the past 12 years. In addition, he is trained to Manipulative therapy level as well as Advanced Remedial Massage, Remedial and Sports, Swedish Massage and several other modalities.

He has trained people in First Aid over the past 30 years. He has taught first aid with major aid agencies and many private organisations. He has taught in a variety of industries including Local Authorities, Voluntary and Private Sector as well as in Primary and Secondary Education.

Currently, Richard teaches Remedial and Sports Massage in both Edinburgh and Aberdeen on behalf of Scottish Massage Schools.
